ERIE JUNIOR PHILHARMONIC

ERIE JUNIOR PHILHARMONIC CHORUS & Youth Chorale

*Calling all young musicians and singers-
the Erie Philharmonic has a summer camp for you!*

INSTRUMENTAL CAMP:

The Erie Junior Philharmonic's Instrumental Summer Camp is back, welcoming string, wind or brass musicians, grades 2-12, with one or more years' of playing experience.

This exciting week-long program provides students of all levels the opportunity to refine their skills with instruction from professional coaches, including members of the Erie Philharmonic! The week concludes with an amazing showcase performance and pizza party!

CAMP DETAILS

Dates: August 1-5, 2022

Times: 8am-12pm (Monday-Thursday) and 8am-2pm (Friday)

Location: Strong Vincent Middle School (1330 W 8th St, Erie, PA 16502)

VOCAL CAMP:

The Erie Philharmonic is excited to announce the launch of a brand new Vocal Academy Summer Camp, available to students in grade 2-12.

This exciting four day program provides students of all levels the opportunity to refine their vocal, theory, performance and piano skills in a fun and relaxed setting, concluding with an end-of-camp luncheon and choral performance!

CAMP DETAILS:

Dates: August 8-11, 2022

Times: 8:30am-4pm

Close of camp concert! (Thursday @ 4pm)

Location: Cathedral of St. Paul (134 West 7th Street, Erie, PA 16501)

TUITION INFORMATION:

\$85 for students enrolled in Erie Philharmonic Junior Programs during the 2021-22 school year

\$100 for students who were not enrolled in Erie Philharmonic Junior Programs during the 2021-22 school year

PROMOTIONAL DISCOUNTS:

Sign up before June 1, 2022 and receive \$10 off your registration!

Have more than one student looking to sign up? We offer a sibling discount of 10% off the price of each students' tuition.

All students will be asked to participate in a placement audition prior to the start of camp to determine which peer group they would fit best in.

Participation in summer camp does not guarantee your child a spot in our Junior Philharmonic, Junior Chorus, or Youth Chorale ensembles. However, all students are strongly encouraged to audition!

Audition information for the season will be provided to all campers!

Sign up at: eriephil.org/summercamp

GOODELL GARDENS
& HOMESTEAD

Educational Programs
for Pre-K-Adult

GOODELLGARDENS.ORG/LEARN

221 WATERFORD ST., EDINBORO, PA

Goodell Gardens & Homestead offers plant-based education for kids of all ages

EDINBORO, Pa. – Looking for environmental educational activities? Look no further than Goodell Gardens & Homestead in Edinboro, Erie County, Pennsylvania.

Located between Erie and Meadville, just a short drive from exit 166 on I-79, Goodell Gardens & Homestead is a public garden, arboretum, and community gathering space offering educational and cultural programming and community events.

Programs are offered for ages pre-K through adult, with age-appropriate offerings for preschoolers (Garden Sprouts), grades K-2 (Garden Seedlings), grades 3-5 (Saplings), grades 6-8 (Young Trees), and grades 9-12 (Flowering Trees). Students who have advanced knowledge and interest in gardening, botany, and horticulture are also welcome to attend Public Programs and the Guest Speaker Series, which are designed for lifelong learners.

“We offer engaging and high-quality education programs for youth and families to connect them to the amazing world of plants,” Goodell Gardens Education Coordinator Andrew Sipple said. “We strive to help visitors restore their relations with the natural world and experience its healing power.”

Programs take place in an outdoor setting whenever possible. In times of poor weather classes are moved under cover.

“Gardens are dynamic and real-world learning environments with opportunities to make connections to all subject areas,” Sipple said. “Outdoor learning is exciting for children and offers experiences that are more memorable than traditional indoor learning.”

The lush, green surroundings at Goodell Gardens are further enhanced by the Edinboro community.

“We are proud to have a relaxed, warm, and family-friendly small-town atmosphere that offers a reprieve from the fast pace and excesses of modern life,” Sipple said. “We strive to create a welcoming and inclusive environment where all people can learn how they are connected to plants, ecosystems, and the fabric of life on earth.”

For more information, or to register for classes, visit

Camp Lee Mar 2022 Dates: June 25 - August 8

Camp Lee Mar, located in the beautiful Pocono Mountains of Pennsylvania, is a coed, overnight camp for children and teenagers (from 7 to 21) with mild to moderate developmental challenges.

- Fun traditional summer camp activities
- Academics
- Speech and language therapy
- Daily living skills
- Teenage campers enjoy social dancing every week with an end-of-summer "Prom"
- Optional trips during the summer
- Exceptional facilities featuring air conditioned bunks and buildings
- Junior Olympic heated pool
- Caring, nurturing staff
- Lee Mar L.I.F.E. (Living Independently Functional Education) Program. The unique feature of our L.I.F.E. Program is that it incorporates everyday living skills into a personalized daily program. We have a fully functional apartment specifically for this program with a large kitchen, washer and dryer, two bathrooms, a living room and bedroom.

Karen Kroninger Knerr, Artistic Director

The Ballet Guild's Six-Week Summer Dance Program will begin the week of Monday, June 27, 2022. Classes are offered for ages three through adult on Tuesday and Thursday evenings. The youngest students begin with an introduction to the basics of ballet; these include rhythm, dynamics, and terminology. Youth level classes are available for the student who wishes to learn ballet or improve his/her technique.

The Pre-Professional Day Intensive is designed for the serious student age 9 & up and includes Progressing Ballet Technique in addition to ballet, tap, jazz, and musical theater. Throughout the Summer Dance Program, guest master teachers are invited to instruct the Pre-Professional day intensive students. The stellar lineup of luminaries in the dance world includes Sterling Baca (PA Ballet Principal Dancer), Tim Fox (NYCB), Erin Puskar (Musical Theatre), Amy Browne Smith (Tap), and more! Bios of each guest master instructor may be found on the Guild's website:

<https://www.bglv.org/classes/summer-dance-program/>

The 2022-2023 season of classes and performances will kick off the weekend of Saturday, September 10, 2022, with Pre-Professional Auditions for ages 8 & up and a Ballet Boot Camp for ages 8 & up. Classes will begin on Monday, September 12. Nutcracker Auditions for ages 6 & up are set for Sunday, September 18, 2022. For class details, visit <https://www.bglv.org/classes/>

Glencairn Museum is a museum of religion, art, and history, dedicated to using art and artifacts—as inspirational expressions of human faith—to foster empathy and help students better understand the history of religion.

We are taking our education programs on the road and online for the 2022-23 school year! Our programs are designed for a diverse range of ages and learning styles. Using object-based learning that invite discussion and discovery, build understanding, inspire self-reflection, and connect students to people, both past and present.

Each of our K-12 programs have been carefully crafted to align with Pennsylvania State Education Standards. Whether in person, or digital, our educators are passionate about providing immersive, interactive, and accessible educational experiences.

We offer the following programs:

Traveling Medieval Life Program (2 hours)
Grades K-8

Traveling Ancient Cultures Program (2 hours)
Grades 4-8

Digital Stained-Glass Program (1 hour)
Grades K-12

Digital Craftmanship at Glencairn Program (1 hour)
Grades 4-10

For bookings, questions, and information contact Amy Glenn, educational programs manager, at 267.502.2962 or amy.glenn@glencairnmuseum.org.

LONGWOOD
GARDENS

Longwood Gardens—located in Pennsylvania’s Brandywine Valley, 30 miles west of Philadelphia—is one of the world’s great institutions for horticultural display, encompassing 1,100 acres of gardens, woodlands, meadows, fountains, and a Conservatory. With a mission to inspire people through garden design, horticulture, education, and the arts, Longwood Gardens offers programming that includes exhibitions, musical performances, renowned horticulture education programs, horticulture research, environmental stewardship, and cultural and community engagement.

Each year, the Gardens hosts and provides educational and career development experiences, online and onsite. In 2007, Longwood developed the School & Youth Program for students in grades K–12 designed to nurture student curiosity while focusing on learning. Currently, 30,000 school children onsite and another 15,000 through free virtual field trips are impacted by Longwood’s educators. Many of these programs are subsidized by Longwood so that any and every school can participate.

Recently, School & Youth learning has gotten an update with on-site programs now done completely outdoors, allowing students to be completely immersed in the world of plants. Teachers can bring their classes to the Gardens in the fall and spring for any of the educator-guided program offerings: Plant Power, Tree-mendous Trees, Finding Your Path, the Benefits of Nature, Superpower Senses, and K-12 Adapted Program. All of the programs offered are connected to Common Core Curriculum Standards and Next Generation Science Standards, and all introduce career opportunities in horticulture, sparking student interest and helping to prepare the next generation of STEM leaders. During these hour-long programs, students find themselves enjoying hands-on, inquiry-based learning leaving a lasting impression long after their visit is over.

To learn more about educational opportunities at Longwood, visit
longwoodgardens.org.

Harrisburg University Enrichment

Discover what inspires you with our collection of some of the finest programs for students who are interested in a variety of different STEM fields. For more information on our enrichment programs, please scan the QR code to visit our website.

www.harrisburgu.edu

STEM Exploration helps high school students, and some middle school students, find their passion in what Harrisburg University has to offer them. Through summer programming, Harrisburg University of Science and Technology engages students around the Harrisburg Area at HU, at our Philadelphia Location, and Online Abroad. These exploration courses run one week or more, and offer a quick look at a specific STEM learning topic to enhance or reinforce that student's interest in the topic. HU offers high school summer programs in the following areas:

Biotechnology is the manipulation (as through genetic engineering) of living organisms or their components to produce commercial products (such as pest resistant crops, new bacterial strains, or novel pharmaceuticals).

Information Science is the science and practice dealing with the effective collection, storage, retrieval, and use of information.

Interactive Media allows people to connect with others, by making them active participants in the media they consume through text, graphics, video, and sound.

Forensic Investigations Students will process mock crime scenes and discuss case scenarios learning how to properly identify, document, and preserve physical evidence. Forensic disciplines discussed would include, but are not limited to fingerprinting processing and identification, impression evidence recovery and comparison, bloodstain pattern analysis, forensic entomology, anthropology, forensics chemistry and biology.

Drones and Geospatial Technology In this course, the worlds of Geospatial Technology and UAS Technology collide to form an exciting experience where students will get practical exposure to a combination of several different applications. This program involves hands-on flying experience and exposure to many different UAS sensors, not just simple imagery. Participants will not only learn many of the applications of drone technology but will also get to keep their own drone.

Check out our Enrichment Website
<https://enrichment.HarrisburgU.edu/#programs> for more information
 or email huenrichment@harrisburgu.edu.

Offering STEAM Programming...

Virtual Field Trips

In addition to our in-person field trips, Whitaker Center also offers virtual field trips. This is a great option for home school groups that are unable to travel to Whitaker Center for a field trip. An educator can video chat with your group to complete STEM activities with students. All materials are delivered prior to the program and a documentary can be viewed by your group as well. This option allows for flexibility, learning, and fun without the travel hassle!

PNC Innovation Zone

Coming this spring, Whitaker Center will be unveiling our NEW PNC INNOVATION ZONE for kids in grades K-12! We will be offering engaging STEAM programming that will include innovative, technology-based activities designed to introduce and reinforce computational thinking skills through a variety of methods including gaming!

**Contact Us

...for Central PA Youth!

Surgery LIVE!

Whitaker Center offers this innovative program for high school aged students to experience a surgical procedure broadcast live from the operating room at Hershey Medical Center through high-definition video conferencing technology at Whitaker Center or remotely in their classroom. In addition to the surgical procedure, students now have the opportunity to take part in a Surgery Live! Extension Experience. This hands-on experience allows students to explore the intubation process, the tools used and a simulation.

2022 Summer Camps

Whitaker Center offers innovative summer camps such as Space, Adventures in Engineering, Storybook STEAM, Musical Theater, Messy Chemistry and so much more for grades K-12!

Changes Enhance the Learning Experience at Hands-on House!

"It was about a year since we visited Hands-on House and we can't believe the changes. My kids love it!" The construction crane and HVAC Airways are my son's favorite while my daughter enjoys sandwich making and Draw Alive – my little Emma loves to see her drawings come to life, Hanna from New Holland, PA exclaimed.

Over the past two years, Hands-on House has been going through a renewal process with new exhibits, programs, and programs for low-income families. "Our goal is to add more value to the admission dollar and the best way is to give kids more fun opportunities for learning," commented Jim Bland, Executive Director.

Summer Camp is another great way to experience learning through play. Camps are for kids 4-10 and are jam-packed with scheduled activities. Scholarships are available for SNAP recipients.

Reading and art programs are other enrichment opportunities available at Hands-on House. Tuesdays features multiple "Story Stretcher" programs where story time is combined with an activity. On Monday, Wednesday, and Friday a combination of open art and art classes are offered. Advanced registration is strongly encouraged as seating is limited. These programs are free with admission.

Birthday Parties at Hands-on House are both fun and affordable. Ninety-minute parties include time in the Clubhouse to blow out candles and plenty of time to enjoy time with friends in the museum. Packages include 8 kids and 12 adults with a small fee for additional people. Room capacity is 25. After hours museum rental is also available.

Current rates and hours are available online at handsonhouse.org.

Hands-on House is a registered 501(c)(3) nonprofit organization, focused on enriching a child's learning through play. Grownups are encouraged to interact with their children to help them experience learning through play more effectively.

GETTYSBURG

FOUNDATION

Gettysburg: History & Life Lessons for Your Homeschooler

A visit to Gettysburg is more than a history lesson. Gettysburg offers lessons in life for your homeschooler.

Lessons in perseverance, humanity, creativity and leadership are woven into the stories of Gettysburg. History comes alive as you learn about topics still relevant today.

Gettysburg National Military Park Museum & Visitor Center

Begin your journey with insights into the Battle of Gettysburg with the film, *A New Birth of Freedom*. Experience the iconic Gettysburg Cyclorama – a massive 360-degree painting depicting Pickett’s Charge. Explore artifacts and interactive exhibits in the Gettysburg Museum of the American Civil War. Tour the battlefield with a Licensed Battlefield Guide by bus or car, featuring iconic battlefield locations

with more than 1,300 monuments and markers. Connect to the battlefield through free National Park Service programs.

George Spangler Farm & Field Hospital

Lessons of perseverance, civility and humanity—and stories of Civil War medicine—will inspire your homeschooler at this meticulously restored historic site.

The thriving farm of George and Elizabeth Spangler and their four children suddenly transformed into a Union field hospital in July 1863.

Today, the best surviving field hospital from the battle features living historians to engage and enlighten your homeschooler as you walk the grounds, hear the stories and feel the emotions.

Open summer weekends, admission is included with your ticket to experiences at the Gettysburg National Military Park Museum & Visitor Center—only minutes away, with shuttle bus access provided.

Children of Gettysburg 1863: The *NEW* Interactive Adventure for Young Historians

This all-new children’s history museum is designed for grades K-5. “Meet” and learn about the experiences of children living in the area during the battle.

Engaging first-hand accounts, interactive exhibits and unique galleries bring the stories to life for your young homeschooler.

Located at 451 Baltimore Street, admission is currently free for children 12 and younger with a ticketed adult.

Ticket to the Past – Unforgettable Journeys: A *NEW* Virtual Reality Experience

Step into history and journey back to 1863 in the historic Gettysburg Lincoln Railroad Station™, home to a new immersive virtual reality experience.

Find yourself in the station when it served as a hospital, supply lifeline and presidential arrival platform. Through virtual reality, hear from unlikely occupants of the station.

Discover the station’s extraordinary impact on these historic figures. Witness their unforgettable journeys. Get a glimpse of President Lincoln himself.

Opening April 29, 2022, and located at 35 Carlisle Street, admission tickets are available online, by phone, at the Gettysburg National Military Park Museum & Visitor Center ticket counter and on-site.

Gettysburg Foundation offers engaging, interactive experiences for your homeschooler and family in Gettysburg, a popular destination for homeschool field trips and summer vacations. **Explore Gettysburg** with us, share lessons with your homeschooler and make lasting memories.

Plan your visit. Call **877-874-2478** or visit **GettysburgFoundation.org**. We look forward to welcoming you soon.

Woodville 

A NATIONAL HISTORIC LANDMARK

THE HOME OF JOHN AND PRESLEY NEVILLE, CIRCA 1780
 Southwestern Pennsylvania's principal link to the late 18th century

STEP BACK IN TIME RIGHT IN YOUR BACKYARD!

Hiding in plain sight in suburban Pittsburgh sits a gem of living history -- General John Neville's former frontier home, Woodville. As the Inspector of Revenue (Tax Collector) for Southwestern Pennsylvania, General Neville enforced the federal tax on whiskey that led to the Whiskey Rebellion of 1794. From log cabin to Virginia-styled home to Victorian country estate, Woodville has a long and interesting history to tell. We interpret the way life was lived here between 1780 and 1820 with tours of the home and grounds, as well as military reenactments, cooking and gardening demonstrations, musical performances and more.

* Historical Programming * Lectures * School & Private Tours * Reenactments * Special Events *

Sign Up Now for Summer Camps

Ages 3 and Up
June – Aug

www.pittsburghkids.org/summercamps

children's
museum
pittsburgh

Explore art, making, performance, and more at summer camps for children ages 3 to 13 at Children's Museum of Pittsburgh on the city's Northside! Campers will have the opportunity to utilize all the amazing amenities available on the largest campus for children in the country. Camps are hosted by skilled teaching artists and take place at Children's Museum of Pittsburgh or MuseumLab, a high-tech museum for youth and teens located next door.

Weekly camps are available from June 20 through August 12, 2022.

Half day camps are offered for ages 3 – 5 at the Children's Museum. Campers will have an enriching experience exploring topics such as art, movement, nature and kindness. Half day camps are available from 8:30 am – 11:30 am or 1:30 – 4:30 pm, with extended care options available for an additional fee. The cost for half day camps is \$135 for Children's Museum members and \$150 for nonmembers. All campers ages 3 – 5 must be potty trained.

Full day camps are broken into three age groups: 6-8, 8-10, and 11-13.

Campers ages 6-8 will express themselves through movement, art and making, while ages 8-10 can explore game design, animation, and printmaking. These camps will be hosted at the Children's Museum.

Camps for ages 11 and older take place at MuseumLab. Participants will take a deep-dive into topics such as metalworking, graphic novels and social justice.

Full day camps are offered from 9:00 am – 4:00 pm. The cost for full day camps is \$270 for Children's Museum members and \$300 for nonmembers. Extended care is available for an additional fee.

Space is limited, register today!

The Underground Railroad Museum located in Flushing, Ohio contains 8,000 items housed in a 3-story building. Come discover Belmont County's untold histories. Slavery, abolitionism, the Civil War and the Transatlantic slave trade are just a few subjects that you will encounter at the museum. Take a step back in time as you glimpse around the museum.

SCHEDULE A GROUP TOUR TODAY!

Recommended donations of \$5 per person or \$10 per family.

Do not miss out on this unforgettable experience.

*The Underground
Railroad Museum*

Dr. John S. Mattox and his wife, Rosalind Mattox, founded the Underground Railroad Museum in 2003. Prior to that, Dr. Mattox sold insurance across the street. There, he began displaying numerous items and created a mini-museum. Once he retired, the old bank building across the street came up for sale, and he and his wife jumped at the opportunity to purchase the building and open the Underground Railroad Museum. His love for history and education is shown through his work as he led tours through the museum and created the UGRRM Traveling Trunk. He established the museum as a non-profit organization. He spoke at many schools and organizations until his unexpected passing in July 2019. The museum remains open under the direction of their children, John Mattox Jr. and Suzanne Evans.

It is run by current museum director Kristina Estle, who began as an intern under Dr. Mattox in 2018. Over the past couple of years, numerous programs have been held, such as Black History Month presentations, Juneteenth Celebrations, and UGRRM Traveling Trunk. Online programming began during the pandemic.

You can visit Underground Railroad Museum – Ohio Valley to view many virtual programs such as virtual storytimes and a virtual Black History Month program that highlights 28 individuals and events that changed the course of this nation's history. A webpage was explicitly designed to highlight the museum's collections, and you can visit <https://ugrrm.omeka.net/>.

Kristina recently researched the underground railroad in Belmont County and created videos highlighting conductors and abolitionists and their stories across Belmont County. Please visit <https://storymaps.arcgis.com/stories/2980505a6df04f73b5b8ed00798627f0>, or for easier viewing, visit the museum's Vimeo page, where all videos have been uploaded <https://vimeo.com/user121653710>.

This summer, a new exhibit, funded by Belmont County Tourism, will be completed based on Kristina's research highlighting the underground railroad activity in Belmont County, *Our Local Heroes*.

FORT LAURENS
Ohio's Only Revolutionary War Fort 1778-1779

Fort Laurens, the only Revolutionary War Fort in Ohio, is happy to host events that accommodate all age groups and education backgrounds. Our upcoming events, this season, are a great way to get out of the house and broaden the learning experience for your students. Check the calendar for these great events

- Revolutionary War School Day—May. Students will learn about the fight for American independence through hands-on, curriculum-based activities that include artillery, musket drill, spy activities, revolutionary war medicine and more. They'll also meet 1st person historic figures.
- Revolutionary War Reenactment and Encampment—July. British and Continental soldiers will camp on the grounds and reenact key battles. The event includes artillery demos, musket drills, and games and crafts for kids.

For more information on these events, contact Fort Laurens at 330-874-2059 or visit the website at www.fortlaurensmuseum.org.

Fort Laurens is Ohio's only Revolutionary War fort and features a museum, memorial, Tomb of the Unknown Patriot and visible outline of the original fort.

The site was considered a steppingstone across the West to stage an attack on the British at Fort Detroit during the American Revolution. Fundraising and plans are currently underway by the Friends of Fort Laurens Foundation to eventually rebuild the fort. Along with Historic Zoar Village, Fort Laurens is managed by the Zoar Community Association.

Historic Zoar Village

198 Main Street
Zoar, OH 44697

Contact Us

800-262-6195 www.historiczovillage.com
zoarinfo@historiczovillage.com

Registration requested. Tickets available via phone or website

Nestled in the foothills of the Tuscarawas valley is a small quiet little town founded on its religious principles. Historic Zoar Village was established in 1817 by German immigrants escaping religious persecution and searching for their safe haven. In 1819, the villagers banded together to form the Society of Separatists of Zoar choosing to live communally until their dissolution in 1898. Today, Historic Zoar Village is a National Historic Landmark District keeping much of its historic appearance.

Zoar goes Presidential for the Fall School Day Students will have the opportunity to meet some US Presidents from various eras from 1817-1898 covering Zoar's history. Other characters from Zoar's history will also be found throughout the village. Presidential activities and games will be held throughout the village along with museum tours and demonstrations.

Cost is \$7 per student, one adult is free per group, additional adults are \$7 each. Children 4 and under are free

Getting children interested in history can sometimes be a challenge, but Historic Zoar Village has abundant experience meeting it. Under the premise that spring has arrived and the people of Zoar are getting ready for a busy season, students will participate in butter churning, bread baking, tinsmithing and more. Interactive demonstrations around the village will provide hands-on instruction on what life was like for the people of Zoar during the 1800s. Homeschool Day returns on April 22, 2022.

Private Homeschool Tours are available by appointment. Please call 330-874-3011 for any questions. You can also email tshrum@historiczovillage.com

Monday: Closed
Tuesday - Saturday: 11AM - 5PM
Sunday: Noon - 4PM

The Kent State University Museum is a top global museum for fashion, historic dress, and textiles. Founded in 1982, the Museum offers invaluable, first-hand experiences for all students, faculty, and staff at Kent State and serves scholarly researchers, global audiences, and the communities of Ohio and beyond. Home to more than 29,000

objects in its collection, the KSU Museum has eight galleries hosting changing exhibitions of work from innovative designers and artists of historic dress and contemporary fashion. Objects in the collection represent the world's cultures and include examples of American glass, fine furniture, textiles, paintings, and other decorative arts.

Current exhibits include *Forever Chanel: Coco + Karl*, *TEXTURES: the history and art of Black hair*, and *Dancing with the Distance*.

Forever Chanel highlights outstanding examples from both Mademoiselle Chanel and Mr. Lagerfeld in the KSU Museum's permanent collection, including couture and high-end ready-to-wear pieces.

TEXTURES: the history and art of Black hair features 180 paintings, sculptures, hair artifacts, photographs, advertisements, and magazines, with a selection of hair products and implements from the collection of Willie Morrow, a pioneer of Black hair care. Organized into three themes, featured artists, barbers, and activists address the complex history of Black hair in African American life and culture.

Dancing with the Distance showcases more than thirty works by award winning textile artist and beloved Kent State professor, Janice Lessman-Moss. Her intricate weavings display the evolution of her craft and were created on a variety of different looms. Her mastery of technology extends not just to the use of high-powered looms for weaving but also to the design of the patterns.

The KSU Museum also hosts ongoing and mini exhibitions like the *Fashion Timeline*, showcasing over two centuries of fashion history, and *What's in Your Bag?*, examining what a purse reveals about its owner.

Ernest Warther Museum & Gardens Dover | Ohio

The Ernest Warther Museum, located in Dover, Ohio is the home of an inspirational life-story of an artist and his works. It all started when Ernest Warther lost his father at the age of three, in 1888, forcing him to take his first job at the age of five. It was during that cow-herding job that Ernest earned the nickname “Mooney,” Swiss for ‘bull of the herd,’ which stayed with him for life. But what ultimately changed the course of his life was when he found a pocketknife in the dirt road. He picked it up, started whittling, and never set it down for another 82 years.

Although the knife changed over the years, Mooney’s determination, ingenuity, and artistic ability never did. In those 82 years, he would hand-sculpt over sixty works focusing around the steam-engine. The result earned him the title of the World’s Master Carver. The Ernest Warther Museum and Gardens is built around the original location of Ernest and his wife’s home, his original workshop, and the first museum which opened on May 10th, 1936 in their backyard. Today, the Ernest Warther Museum is owned and operated by third and fourth generation family members whose mission is to share, educate, and delight visitors with the works compiled and created by both Ernest and Frieda Warther to invoke passion, determination, and admiration for the beauty of their art. We offer guided and self-guided tours for groups and families. Please visit our website, warthermuseum.com, for more information on tour times and booking a group tour or email Kristen at kristen@thewarthermuseum.com. Our educational page has more information on student groups, activities, and grant opportunities. We look forward to having your student group here with us for an inspirational and memorable educational experience.

Aullwood Audubon

SUMMER EARTH ADVENTURES

Aullwood Audubon, 1000 Aullwood Rd, Dayton OH

Join us at Aullwood beginning on June 6 for our all new week-long Summer Earth Adventures nature camps! These full day camps for kids from kindergarten through 6th grade feature a variety of exciting nature themes and tons of fun!

Member registration starts April 8; public registration begins April 15. Don't delay, Aullwood's summer classes fill rapidly!

**Visit <https://aullwood.audubon.org/sea>
or call 937-890-7360 for details**

Aullwood Audubon

Aullwood Audubon Summer Earth Adventures

What has 80 days, 1,920 hours and 115,200 minutes? Summer Break!! Come spend at least 5 days, 35 hours and 2,100 minutes with us at Aullwood Audubon. We will explore H₂O, Mad Science, conduct a Bio-Blitz, visit Aullwood's Trolls, learn about outdoor survival & nature engineering while creek walking, sweeping for insects, building shelters, painting & hiking under the stars. They are all part of Summer Earth Adventures (SEA) at Aullwood Audubon this summer. Registration opens for members on April 8 and for everyone else on April 15.

What will a typical day look like at SEA? The "H₂O" camp session would start with an adventure hike with camp staff. Campers will then explore places where water is found, taking a closer look at plants, using field microscopes to look at water in the leaves of plants. Campers will explore the creek, using equipment such as nets to learn about macroinvertebrates and how they are indicator species of the health of the stream. Another experiment includes using multiple tools to look at how the addition of water changes the physical characteristics of an object. Art is included as campers create a watercolor picture of some part of nature with water.

Camp will be from 9 am to 4 pm with extended day options until 6 pm, Monday through Friday starting on June 6 to August 5. All Registration will be online for 2022. Any questions please email frances.boyens@audubon.org

Aullwood is an environmental education, sustainable agriculture, and Audubon Center of the National Audubon Society in western Ohio, Aullwood Audubon teaches, leads and inspires people to preserve, protect and enjoy nature, farming and the environment. AN AMERICAN CAMPING ASSOCIATION ACCREDITED CAMP

AN AUTHENTIC
WILDERNESS SUMMER
CAMP EXPERIENCE FOR
GIRLS, SHAPED BY FUN
AND FRIENDSHIP.

camplittlenotch.org/2022
518-798-9700

Camp Little Notch (CLN) is a non-profit summer camp for girls, located just 17 miles from Lake George. Our property is situated on 443 acres of pristine Adirondack wilderness, including a 80-acre private lake. From 1939 to 2008, Camp Little Notch was a Girl Scout camp. In 2009, when the camp was closed by the Girl Scouts, the Friends of Camp Little Notch organization was formed by an energetic group of alumni who worked tirelessly to acquire Camp Little Notch and reopen it. Now, thanks to their efforts, CLN continues to be a place for girls to make friends and have adventures.

What makes CLN special?

- We create an experience that is rustic and unplugged. We believe camp is a place for girls to be screen-free and make face-to-face connections, while developing an appreciation for the natural world.
- We develop an intentional community where girls can try new things, be their authentic selves, and make memories. We put a special focus on developing camper's autonomy by having them play an active part in deciding what experiences they have at camp. Our small group sizes allow this to become a reality.
- At CLN, campers participate in a variety of activities like swimming, canoeing, arts and crafts, kayaking, creekwalking, nature study, outdoor survival skills, and more! All campers participate in a weekly overnight somewhere on the property where they practice primitive camping and cook their meals together over a campfire.
- One of our values is Harmony with Each Other. Our program is open to all girls, regardless of race, ethnicity, sexual orientation, gender identity or expression, ability, or religious beliefs.

Camp Little Notch offers traditional sessions from July 3-August 5, along with wilderness trips and a Counselor-in-Training program. Learn more about CLN, the different sessions, and register today at camplittlenotch.org/summercamp!

125 Route 340, Sparkill, NY 10976 • 845.398.4000 • www.stac.edu

Looking for the perfect summer camp for your child? St. Thomas Aquinas College (STAC) in Sparkill, NY will hold its Summer STEAM Camps for middle school students entering Grades 5-9. The camps will be held in person starting, Tuesday, July 5 through Friday, July 29, 2022. The STAC STEAM camps offer something for everyone in Science, Technology, Arts, and Mathematics.

Safety is our top priority, and the Summer STEAM Camps will follow all appropriate COVID-19 guidelines according to the CDC and Rockland County Department of Health.

The generous support of Orange & Rockland Utilities makes the series of STEAM Camps possible.

“The STAC Summer STEAM program aims to develop in students, the 21st century version of problem-solving, teamwork, collaboration, and communication by making classroom work in Science, Technology, Art, and Mathematics stimulating, timely, and engaging.” according to Dr. Suzanne Reynolds, Assistant Dean of STAC’s School of Education and Director of the STAC Summer STEAM Camp program.

Four camps are being offered:

The Physics of Flight This camp serves as an introduction to aerospace physics. Campers will examine the theory of basic aerodynamics, the physics of flight, and spacecraft operations.

The camp will include a combination of classroom discussion, multimedia presentations, and “hands-on” exercises flying various drones. This camp is aimed to inspire students in various aerospace career fields such as professional pilot, aeronautical engineer, or even an astronaut.

The Mathematics of Art explores the fascinating relationship between Mathematics and Art. At this camp, we will explore mathematics through the lens of several different art forms, including sculpture, tessellations/ mosaics, street art, and drawing. We will investigate ratio and proportion, the scaling up of images, the use of angles to create perspective, and the creation of tessellations and mosaics. This camp will allow your child to be creative while deepening and expanding their mathematical thinking!

Emerging Technologies Let your child explore robotics and virtual reality (VR) while having fun experiencing the world of science and engineering. By applying computer science, engineering, and creative skills to innovative projects, campers will gain insight into all three of these areas through hands-on experiences. Campers will build and program their own robots, which they will take home.

Campers will create a 3D virtual world that can be experienced with state-of-the-art 3D headsets. Through these activities, campers will have a meaningful introduction to some of the fundamental principles of science and engineering, improve their critical and computational thinking abilities and more!

Thrills and Chills: The Physics of Roller Coasters Campers will explore the physics of roller coasters through a combination of hands-on exploration and computer simulations. Topics of inquiry will include: velocity, acceleration, centripetal force, potential, and kinetic energy. Campers will design their own roller coaster incorporating the concepts learned. This camp will include a field trip to nearby LegoLand in Goshen, NY.

Visit www.stac.edu/steam to register and learn more about STAC’s Summer STEAM Camps!

Walt Whitman Birthplace

NYS Historic Site and Interpretive Center

THE BIRTHPLACE: Walt Whitman was born in this house on May 31, 1819. Built by his father circa 1810, the authentically furnished farmhouse is an excellent example of native Long Island craftsmanship.

THE INTERPRETIVE CENTER: This center displays over 42 portraits of Walt Whitman, a copy of *Leaves of Grass*, the writing desk Whitman used as a schoolteacher and a replica printing press used during his journalism career. Also offered is a video and a recording of the poet reading his poem *America*.

SCHOOL PROGRAMS: All programs support NYS Regents Social Studies and Language Arts curriculum. All programs include a docent-led tour of the historic birthplace of Whitman. Both "Create and Explore" (Grades 3 – 8) and "Journey Through Time" (Grades 9

– 12) offer grade-appropriate programs that include poetry writing workshops taught by a published Poet and tours, led by a knowledgeable Educator. During "See and Touch" (Grades Pre-K – 2) students tour the home in which Whitman was born and learn what life was like in 1819. They engage in interactive historic games enjoyed by children of Walt's generation. Our new Civic Mindedness program (Grades 4-12) looks at Walt's connection with the Civil War, how it impacted him, influenced his poetry, led to compassion for others and why he was known as the Poet of Democracy. Art, yoga, and online programs are also available!

For information: www.waltwhitman.org

CAPE SYMPHONY EDUCATION: A LIFETIME OF ENRICHMENT

The Cape Symphony offers a thriving program of private lessons, group classes and music ensembles for youth and adults. They believe that, through music and dance, they can help people enrich their lives and, in turn, enrich the lives of others. It's all part of the Cape Symphony's mission to inspire joy.

Private lessons are offered on all instruments and voice to students of all ages and abilities. The wide variety of music classes offered includes group piano for children and adults; flute choir and string ensemble for adults; and Suzuki violin instruction for ages three to 12.

The dance program for students ages two years to seniors is held at the YMCA Cape Cod, next-door to the Cape Symphony's Barnstable Campus, which offers the perfect space for dance. Classes include a full range of ballet instruction as well as contemporary, hip-hop, jazz, and tap.

The Cape Symphony Youth Orchestra (CSYO) is a year-round program that consists of two ensembles: CSYO and Repertory Winds & Strings. Members of both groups learn to rehearse and perform like the Cape Symphony, exploring the beauty and intricacy of history's greatest compositions while continuing to grow their musicianship and technical ability. "The lessons these kids learn reach far beyond the classroom," says Kyle Spraker, Cape Symphony's Educational Outreach Programs Manager. "Each member is vital to the sound we create as an ensemble and must learn how to contribute boldly. Young people are capable of

great things, sometimes they just don't know it yet. It's our job to inspire them to raise their own level of expectation." CSYO welcomes all young musicians from ages 12 to 21 who play orchestral instruments to enroll and audition for placement in one of the two ensembles offered.

In the Cape Symphony Preschool at the Barnstable campus, every day is an academic and artistic journey. Children discover the magical world of numbers, letters, books, and storytelling. They conduct science experiments, tune in to the weather, and learn about animal habits. To enhance these learning experiences, they weave music, dance, and visual arts into the fabric of every day. Children learn about great artists and composers. They sing, dance, play instruments, and create their own works of art. "Planting the seeds of arts appreciation and exploration at an early age is key to developing the musicians and artists of the future" says Su D'Ambrosio, Instruction and Community Engagement Manager. "Music is a birthright, and we want all of our students to have the confidence and skills needed to be lifelong participants in the arts."

Private lessons are offered year-round from beginning through advanced levels in all major instruments and voice, in a welcoming, nurturing atmosphere. An expert faculty, including many Cape Symphony musicians ensures the best-suited student/teacher match. Recitals are held at the end of each semester, with community performance opportunities offered throughout the year.

The Cape Symphony has two campuses in Barnstable and Falmouth, both set in tranquil, wooded areas. The Barnstable Campus is conveniently situated between Route 6 and Route 6A, and its features include two large preschool rooms, a drum studio, a keyboard lab, and five practice rooms. The Falmouth campus, located at the top of Highfield Drive, features a recital hall that comfortably seats 200, a large multipurpose rehearsal room, a drum studio, keyboard lab, seven practice rooms, and other spaces available to rent for events.

"Our engaging music and dance classes include something for everyone," says Michael Albaugh, Executive Director of the Cape Symphony. "Now is the perfect time for students of all ages to learn something new or improve your skills."

Enrollments are open now for ages preschool through adult. To learn more, visit the Cape Symphony online at capeartsymphony.org/education.

Explore your wild side!

AT THE ZOO IN FOREST PARK

293 SUMNER AVE., SPRINGFIELD, MA | 413-733-2251 | WWW.FORESTPARKZOO.ORG

The Zoo in Forest Park & Education Center invites you to explore your wild side with its award-winning education programs. Located in Springfield, Mass., The Zoo in Forest Park has been a mainstay of the community for over 100 years. With a focus on education, conservation and rehabilitation, The Zoo works with wildlife rehabilitators across the country to provide homes to animals deemed non-releasable due to injury, illness, permanent disability or other factors. The Zoo aims to teach its patrons about the wildlife that surrounds them through field trips, hands-on interactive STEAM programming and virtual options, all of which can be tailored to fit topics students are studying in their classwork.

Field Trips

A field trip to The Zoo allows groups the opportunity to observe both native and non-native species and learn about their diets, behaviors, status in the wild, and roles in the ecosystem. Choose from a variety of add-on education programs to enrich your experience and learn from a Zoo Educator.

Kids Go Wild!

Kids Go Wild! delivers multi-week, interactive STEAM lessons focused on wildlife education that meet state education standards. This unique program features at least one cross-hatched science and literacy activity or lesson as well as a variety of animal ambassadors and artifacts. This program is available as an on-site, drop-off program for homeschoolers, based on availability.

Virtual Programs

Not in the area but still want to learn from our educators and ambassador animals? Not a problem! The Zoo's education programs can easily be adapted to fit a virtual setting. No matter where you are, we can bring wildlife education to you.

The Zoo is open to visitors from April-October, but programs are available year-round and are booked on a first-come, first-served basis. For more information about our education programs, visit www.forestparkzoo.org/education or email education@forestparkzoo.com.

“If the world were perfect, it wouldn’t be.”
— Yogi Berra

The Yogi Berra Museum & Learning Center is sustaining the values that made Yogi a national treasure through inclusive, culturally diverse, sports-based educational exhibitions and programs.

On the campus of Montclair State University
8 Yogi Berra Drive, Little Falls, | 973.655.2378

www.YogiBerraMuseum.org

It Ain't Over...

Education at the Yogi Berra Museum & Learning Center

Drawing on every aspect of Hall of Fame catcher Yogi Berra’s biography, the Yogi Berra Museum & Learning Center offers an array of standards-aligned, in-person and virtual education experiences that support and extend classroom learning in unique ways.

Baseball and STEM

Pitching, striding, measuring – young people experience in their own bodies important concepts in STEM including momentum and the kinetic transfer of energy.

Poetry, spoken word and Yogi-isms

A language arts immersion builds on Yogi’s famous playfulness with language. (Yogi remains the most quoted American sports figure of all time, well known for his Yogi-isms such as “It ain’t over til it’s over,” and “When you come to a fork in the road, take it.”) Young people write and perform spoken word poetry that draws from their individual experiences.

Studying the Negro Leagues

Students explore the complex history and struggles of Black ballplayers in our national pastime, illuminating historical concepts such as Jim Crow and the Great Migration, as well as larger, ongoing issues of systemic racism and its impact on communities of color.

Reinventing the Museum during a pandemic

At a time when students couldn’t come to the Museum due to COVID-19, the Museum decided to go to the students through remote platforms. Even as in-person visits are again possible, all field trip programs remain available virtually, so that all students can participate. In this way the legacy of the great Yogi Berra, as well as the values that made him a national treasure, will continue to reach young people near and far, and farther still.

To learn more about the Yogi Berra Museum & Learning Center or to plan a visit, in person or virtually, visit yogiberramuseum.org.

Inspiration. On Display.

Be inspired at the New Jersey State Museum. The museum is the center for the exploration of science, history and the arts. Explore exceptional exhibits. Meet Dryptosaurus and Hadrosaurus, New Jersey's very own dinosaurs. Discover the diversity of voices and visions found in 19th through 21st century art. Hear untold stories. Voyage through the mysteries of nature and space during daily Planetarium showings, too.

While admission to the museum is free, there is a fee for Planetarium shows.

The New Jersey State Museum.

Inspiration. On Display.

Explore history, science and art at the New Jersey State Museum. Whether it's sunny skies or rainy and gray, a museum visit is a fun, family-focused day and supports STEAM learning (science, technology, engineering, arts and math) too!

Fascinating Fine Art

Over 12,000 works of fine art are held in the museum's collection, many by some of America's most important artists. Paintings, prints, drawings, sculptures and photographs—many created by artists living and working in the Garden State—are on display in the American Perspectives galleries.

Natural History Wonders

Step back 3.5 billion years to explore the state's geology, oldest fossils and the progression of life here. Be amazed by life-sized casts of dinosaurs and learn about the evolution of turtles, fish, mammals and birds.

Adventures in Archaeology & Ethnography

With a collection of over 2 million prehistoric and historic specimens encompassing data on the entire span of human life in New Jersey, visitors will see the evolution of tools and other artifact types used by Native Americans. The Ethnographic collection offers visitors a glimpse into the lives of the Delaware Indians over a 200-year time span.

Captivating Cultural History

This collection contains more than 13,000 artifacts documenting New Jersey's cultural, economic, military, political and social history—ranging from pottery and textiles to flags carried into battle.

A Galaxy of Planetarium Shows

Ready. Set. Soar! Take a visual journey through nature, history and space during spectacular 360-degree laser shows in our spacious 140 reclining-seat Planetarium.

Exceptional Exhibits

Enjoy an ever-changing roster of educational exhibits that offers an insightful glimpse into astounding marvels in culture, art, history, science and beyond.

The New Jersey State Museum

While admission to the museum is free, there is a fee for Planetarium shows. Visit statemuseum.nj.gov for details, dates and times.

**AMERICAN
VILLAGE**
CITIZENSHIP TRUST

3727 Hwy. 119, Montevallo, AL
30 minutes south of Birmingham

 **Like us on Facebook!**

The American Village is a unique attraction in the heart of Alabama, on 188 acres of rolling pasture in Montevallo, 30 minutes south of Birmingham. Housed here is a nationally pioneering education institution focused on building good citizens through immersive and engaging experiences. Here visitors discover the power and drama of America's journey for independence, liberty and self-government.

The Village offers school programs for students in grades K-12, and caters to public, private, parochial and homeschool groups. Students take part in American history as they step back in time to the founding era of our nation, learning firsthand through engaging experiences led by a passionate staff of costumed historical interpreters.

Now open is the West Wing of Independence Hall, which offers a multi-sensory experience "Choosing to be an American People." Visitors travel from the Boston Massacre to the protest of the Stamp Act and the Boston Tea Party, to Paul Revere's Ride and the Shot Heard 'Round the World, through the American Revolution and the signing of the Declaration of Independence!

The distinctive American Village campus includes Washington Hall, inspired by George Washington's Mount Vernon; a Colonial Courthouse; replicas of the President's Oval Office and East Room of the White House; a Colonial Chapel inspired by Bruton Parish Church of Williamsburg; a Colonial Garden; Concord Bridge; a replica of the Liberty Bell; and an old-fashioned and beautifully restored Barn.

Although these facilities play a key role in presenting these ideas and stories, the American Village campus is not about its buildings. It is instead about building in the hearts and minds of students -- young and old -- a sense of stewardship of what George Washington called "the sacred fire of liberty."

**Discover
Alabama's
Water
Resources**

There's an adventure for every age at the Dauphin Island Sea Lab.

Camps, Excursions, Classes, and more are offered year-round.

What will you discover on your next visit?

Make plans today at www.disl.edu.

**Dauphin
Island
Sea Lab**

101 Bienville Blvd., Dauphin Island, AL 36528
251-861-2141 www.disl.edu

A trip to the Dauphin Island Sea Lab can begin a journey of wonder that expands to scientific collaboration.

The Dauphin Island Sea Lab was created to provide marine science programs for the state of Alabama's colleges and universities. Founded in 1971 by the Alabama legislature, the goal was to reduce redundancy in higher education. Today, opportunities include graduate and undergraduate studies, K-12 education, professional development, and a public aquarium.

"Because the planet's environments are changing so rapidly and in many ways unpredictable, it is of critical importance that we better understand how natural processes work in the world's ocean," Executive Director John Valentine explains. "It is here that we bring together scientists, educators, and interested members of the community to study how the environment is shifting and affecting our ocean resources. In doing this, we are better able to make robust projections about how future ocean conditions will be."

Surrounded by the natural coastlines of Mobile Bay, the Mississippi Sound, and the Gulf of Mexico, the Dauphin Island Sea Lab is the perfect place to raise awareness and understanding of our oceans.

Each year more than 15,000 students are introduced to these environments by Discovery Hall Programs marine educators. Educators also have the opportunity to attend professional development workshops on a variety of topics to broaden the scope of what is brought into the classroom.

"Our educational philosophy is one of do," Discovery Hall Programs Chair Dr. Tina Miller-Way said. "We give our visitors a true hands-on education by providing authentic experiences in the field, in the salt marsh, on the boat, driving underwater robots, and collecting and analyzing data. It's these experiences that give students and all of our visitors a better understanding of the ocean."

Learn more about the Dauphin Island Sea Lab at disl.edu.
